SOFTWARE DEVELOPER

Software Developer with a strong foundation in data structures, algorithms, and object-oriented programming. Experienced in building scalable, efficient, and user-centric software applications using C++ and modern development frameworks. Skilled in problem-solving, system design, debugging, and performance optimization, with the ability to quickly learn and adapt to new technologies. Passionate about delivering reliable software solutions that create real-world impact.

KEY COMPETENCIES

Report writing and presenting	Strong interpersonal skills
Critical thinking skills	Proactive and self-motivated
Excellent communication skills	Lateral Thinking

EDUCATION

Bachelor of Technology

Majors: Computer Science And Engineering: 6.99
Gandhi Institute Of Engineering And Technology

Intermediate

D.B.M.S. Kadma High School : 73%

Matriculation

D.B.M.S. Kadma High School

EXTRACURRICULAR ACTIVITIES

Senate Member

D.B.M.S. Kadma High School

Basketball Captain

Gandhi Institute Of Engineering And Technology

Sub-Junior State Basketball

represented East-Singhbhum at Youth Basketball
Championship 2018

PROJECTS

BloodLens AI

AI-powered blood sample analysis system that uses image recognition to assist in early disease detection. Designed to analyze microscopic blood images and highlight abnormal patterns, helping improve diagnostic speed and accuracy while reducing manual effort.

- Analyzed microscopic blood images to identify abnormal patterns linked to potential diseases
- Automated parts of the diagnostic workflow, reducing manual effort and analysis time
- Focused on accuracy and speed to support early-stage medical decision-making
- Designed with scalability in mind for future clinical or lab integration

Clyra Browser

A lightweight, feature-focused desktop web browser designed for smooth and secure everyday browsing.

Key Contributions:

- Developed core browser features including tab management, navigation controls, and search functionality
- Focused on minimal UI design to improve usability and reduce distractions
- Integrated essential privacy and performance considerations for a smoother browsing experience
- Built as a desktop application with scalability for future feature expansion
